Hey, Fred --

I was just talking to Jay about the data he is looking at and mentioned this meeting, so I cc'd him to join us. Hope that's ok with you?!

Have a good weekend.

Terry

Only four types of organizations need to worry about data quality:

*Those that care about their customers,
Those that care about profit and loss,
Those that care about their employees, and
Those that care about their futures.*

Mike, Terry,

I am calling a meeting to discuss where we are on evaluating the Dimock 104E data. Specifically need to know where we are with completing the checklist. More specifically the checklist on the data associated with home wells. Need the information to report out at the 8:30am Dimock status conf. call.

Fred
